ADITYA VARMA DANTULURI

29 Headon Ave Ajax, ON, Canada |+1 647-637-7662|varmadantuluri510@gmail.com |LinkedIn

Professional Summary:

Technology professional with **5+ years of enterprise experience** in release management, CI/CD, deployment coordination, DevOps, and software delivery across banking and healthcare environments. Experienced in managing end-to-end releases across **DEV, SIT, UAT, and Production**, coordinating cross-functional teams, managing deployment risks, and supporting ITIL and HIPAA-compliant environments. Proficient in **Azure DevOps, Jenkins, Bamboo, UrbanCode Deploy, GitHub, JIRA, ServiceNow, SQL, and Shell scripting**. Improved release success from **73% to 98%** and maintained zero production issues across three consecutive quarters. Currently pursuing a **Master of IT Security with a specialization in Artificial Intelligence at Ontario Tech University**, with a growing focus on cybersecurity, security automation, and AI applications in cybersecurity.

EDUCATION:

2026 – 2028 (Expected) I Ontario Tech University
Masters of IT Security – Artificial Intelligence

2021-2025 I Birla Institute of Technology - Pilani
B.Sc. Design & Computing

SKILLS:

DevOps & CI/CD: Azure DevOps, Jenkins, Bamboo, UrbanCode Deploy (UCD), CI/CD Pipeline Configuration, Build Management, Deployment Automation
Version Control: GitHub, SVN
Programming & Security: Python, SQL, Shell Scripting, IT Security, Security Automation, OWASP ZAP, Steganography
Release & Change Management: Release Planning, Change Management, Deployment Coordination, Release Scheduling, Risk Management, Root Cause Analysis
Tools: JIRA, ServiceNow
Methodologies: Agile, DevOps, ITIL, HIPAA Compliance
Leadership: Team Leadership, Stakeholder Communication, Cross-functional Collaboration, Process Improvement

WORK EXPERIENCE:

Release Manager
HCLTech I Jan 2023 – Aug 2026

- Managed end-to-end software release lifecycles across **DEV, SIT, UAT, and Production** environments for banking and healthcare applications.
- Led and mentored **Release Engineers**, coordinating Development, QA, Business, Operations, and Project Management teams.
- Managed release planning, scheduling, change requests, approvals, deployment risks, dependencies, and post-release activities.
- Used Azure DevOps, Jenkins, UrbanCode Deploy, JIRA, ServiceNow, GitHub, and SVN to support enterprise

release and deployment activities.

- Coordinated production issues, deployment risks, and dependencies through structured **root cause analysis and corrective actions**.
- Improved release success rate from **73% to 98%** through optimized release scheduling and process improvements.
- Achieved **zero production issues across three consecutive quarters in 2023** through effective release planning, coordination, and risk management.

Build & Release Engineer

HCLTech | Jan 2021 – Dec 2022

- Managed application builds and deployments across **DEV, SIT, UAT, and Production** environments.
- Configured and supported CI/CD pipelines using **Azure DevOps, Bamboo, and UrbanCode Deploy**.
- Managed source code and release artifacts using **GitHub and SVN**, maintaining version control and release traceability.
- Coordinated build and deployment activities with Development and QA teams to support timely software releases.
- Troubleshot build and deployment failures, performed **root cause analysis**, and coordinated corrective actions with technical teams.
- Supported release planning, change management, deployment scheduling, implementation activities, and post-deployment validation.
- Used **JIRA and ServiceNow** to track changes, incidents, deployment activities, and release-related tasks.
- Worked in **Agile and DevOps** environments to improve software delivery processes and deployment reliability.

PROJECTS

ZAP Security Scan

Birla Institute of Technology and Science, Pilani | Sep 2024 – Feb 2025

- Conducted web application security testing using **OWASP ZAP** to identify and analyze common web application vulnerabilities.
- Analyzed identified findings to understand their **potential security impact** and strengthen understanding of web application security testing.

Image Steganography Using LSB

Birla Institute of Technology and Science, Pilani | Apr 2023 – Jul 2023

- Developed an image steganography application to securely hide and retrieve information using the **Least Significant Bit (LSB)** technique.
- Implemented data encoding and decoding by modifying the least significant bits of image pixels while minimizing visible changes.
- Applied concepts of **information security, confidentiality, Python, and image processing**.

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate (AZ-204)
Microsoft Certified: Azure Fundamentals (AZ-900)

ACCOMPLISHMENTS

- **Star Performer Award** — Franklin Templeton project, HCLTech.
- Improved release success rate from **73% to 98%**.
- Achieved **zero production issues across three consecutive quarters in 2023**.
